Subject: frivolous trade mark protest
Date: Tuesday, September 24, 2019 11:05:15 AM

To whom it may concern,

I have already voiced my concerns in a previous email against the charge for Filing a complaint against frivolous trademarks and may add received no reply.

So I would now like to ask what is the charge for? for what ends is it needed? as I can only assume it's purely taking advantage of the current situation.

If you are going to charge you could at least explain where the money is going and why all of a sudden the charge.

I would have thought that a word like dog which shouldn't be trademarked and in my opinion wouldnt take much working out by yourselves that this is the case so why the extortionate cost to file a LOP?

I would appreciate a reply to explain the situation.

Many thanks

A Haggarty
